

X FAZER 310

The versatile X-310 Fazer from Antari is equipped with the most sophisticated features including new technology aluminum cast heater, quiet high quality pump, high precision PCB design and controllable twin fans. The new high efficiency heater technology ensures low fluid consumption of less than one liter per two hours of continuous fogging (30% output). High precision fan control can be achieved thanks to the durable twin fans and the X-10 digital control module. The high quality bearings in the fans, allows silent operation, making the machine ideal for use at noise sensitive events. With a small degree of fine-tuning, a perfect haze of fine particles is achievable and minimal residue ensures long term reliability of sensitive lighting equipments. The X310 is a top preference for stage and studio professionals.

Specifications

- Power: AC100V/ AC120V/ AC230V/ AC240V, 50Hz-60Hz
 - Heater: 1,000W
 - Output: 3,500 Cu.Ft / Min.
 - Heat up Time: 12 Min.
 - Liquid Consumption Rate: 45 Min. / Liter (100%) 2 Hrs. / Liter (30%)
 - Tank Capacity: 2.5 Liter
 - Control Module Included: X-10 Timer Control Module
 - Optional Control Module: X-20II DMX Control Module, X-30 Wireless Control Module
 - Optional Accessories: Flight Case
 - Weight: 20.5 kg
 - Dimensions (mm): 635L x 275W x 281H
 - Liquid used: Antari FLG Liqued only
-
