

# X FOGGER 515

---

The X-515 fogger, the main force of X Series and is the most advanced fogger in the professional performance market. Under its streamline contoured body lays a 100% pure aluminum cast heater, heavy-duty and silent running pump, and Antari's proprietary circuit design. The highly efficient but powerful heater produces a clean and dry fog at an unparalleled level for a machine in this class. The customized rubber pump mounting helps the already quiet pump to achieve virtual silence. The unique designed circuitry is 100% resistant to external power interference and so guarantees complete stability in thermal control. This combination of great features and advanced design make the Antari X-515 an obvious choice for the professional rental company and their client base of Theatres, TV Studios and major staged events.

## Specifications

- Power: AC100V/ AC120V/ AC230V/ AC240V, 50Hz-60Hz
- Heater: 1,500W
- Output: 20,000 Cu.Ft / Min.
- Heat up Time: 11 Min.
- Liquid Consumption Rate: 13 Min. / Liter (100% Output)
- Tank Capacity: 6 Liter
- Low Fluid Indicator: Blue LED
- Control Module Included: X-10 Timer Control Module
- Optional Control Module: X-20II DMX Control Module, X-30 Wireless Control Module
- Optional Accessories: HB-10 (Hanging Bracket and Drip Tray). Fog Hose Adaptor , Flight Case
- Weight: 15.5 kg
- Dimensions (mm): 646L x 240W x 190H
