

## 575WPAR-B - Spotlight

This cast aluminium spotlight uses a high output 575 Watt lamp which, combined with a computer designed reflector, produces about the same amount of light as a conventional 1 KW PAR 64. It is now possible to reduce the number of dimmers because for 575 watt fixtures can be plugged to one 2.4 KW dimmer channel. Aside from the reduction in dimmers, this PAR comes with easy to change lenses for VNSP, NSP, MFL and WFL beam spreads all from one spotlight.
