300-Series Control Consoles 400/600 channel memory

Cat. No. 95705
400 Channel Memory Console

All two tier consoles feature a unique folding design to simplify handling and storage. Touring companies will appreciate the reduced packing space that this feature offers.
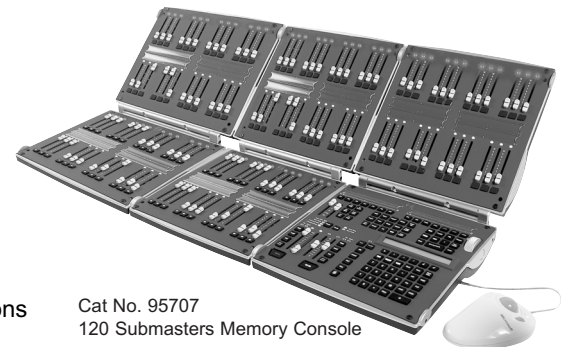

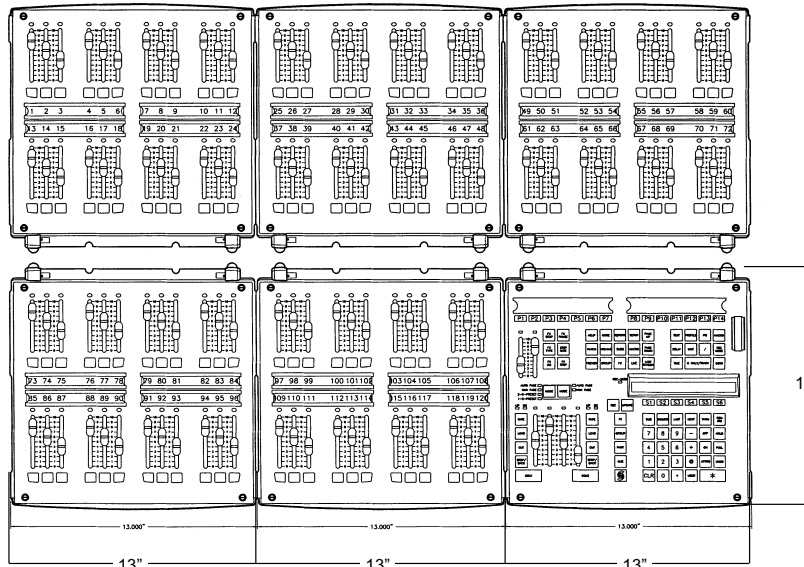

400/600 CHANNEL MEMORY
❑ Two models available with 400 channels/400 attributes or 600 channels/400 attributes
❑ Unique folding design with dual color LCD displays standard on Memory versions
❑ Powerful Pentium class processors provide performance and reliability
❑ ShowNet Ethernet functionality standard on all models
❑ Full support for automated lighting
❑ Compatible with 500 series consoles
❑ Wide range of accessories
❑ Backlit keypads

Cat No. 95707
120 Submasters Memory Console

120 SUBMASTER MODEL
❑ 600 channels/400 attributes
❑ 120 overlapping programmable submasters
❑ Dual standard video ports
❑ Modular construction for fully flexible layout. Modules may be arranged to meet any control room layout or operator requirements

All Strand consoles use the proven Genius Pro/Lightpalette operating software offering support for Preset or Tracking Style operation for the first time in a small to mid range console. Motion control is a standard feature of the 300 series and is fully implemented using our Intelligent Trackball/Mouse support.
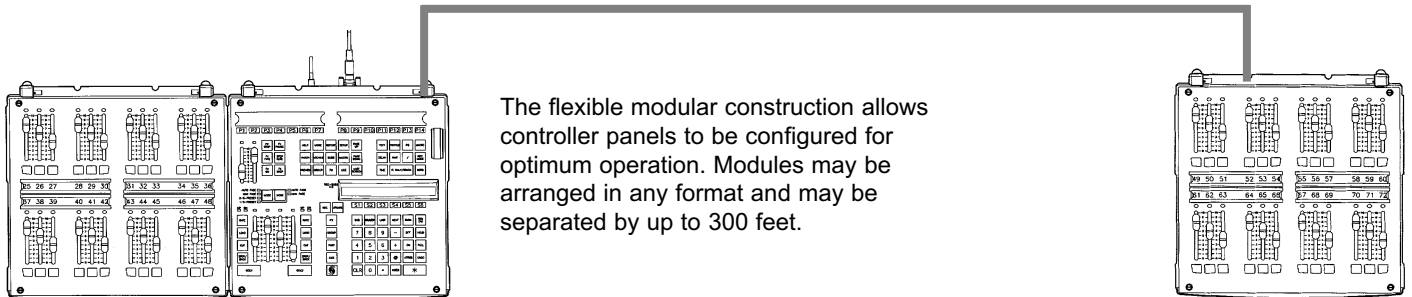

The processor module is the heart of any 300 series control system. Offered in a wide range of channel capacities and features, all processor modules can be easily upgraded. Powered by Pentium class processors, the 300 series controllers offer the performance operators have come to expect from Strand Consoles.
