

Raklites

They fit in racks, we call them Raklites . . . alert the media.

Single space rack panel designed for standard rack installation (19" x 1.75")

RL-10-S

High Intensity single permanently attached 12" gooseneck with dimmer. Gooseneck is recessed into panel for transport.

RL-10-D

High Intensity double, permanently attached 12" goosenecks with dimmer. Goosenecks (geesenecks?) are recessed into panel for transport.

RLX

Single space rack panel with two 3-pin XLR connectors for use with our X series 3-pin goosenecks. Ya gotta get the goosenecks separately.

All RAKLITES are available with 240 volt Euro-Style transformer (E) or with transformer deleted (A).
