

Mini Light Palette® 90

The single-console version of [Light Palette® 90](#) has all the functionality of the larger desk, and is intended for the medium scale venue and for touring. The desk includes all electronics, 24 submasters and a single 3.5" disk drive. Capacity is 576 channels which are proportionally patched to up to 1024 dimmers connected by two DMX512 multiplex ports. Supplied with cables and handbook, and requires two separately-ordered colour monitors. For further details, please call your local Strand distributor.
