

## Patt.35

### Pattern 35 Arena Flood 1000 Watt

This lantern gives a wide angle vertical beam, free from "hot spot", suitable for illuminating large areas, such as dance floors and circus arenas.

#### **SPECIFICATION :**

The lantern is constructed in steel, efficiently ventilated. The underside is fitted with a hinged door carrying a circular metal colour frame. Complete with anodised aluminium reflector. The tilting fork is fitted with two suspension rings in addition to the usual pin for barrel clamp (not included). Wired with 2 ft rockbestos tails.

Finish : black enamel outside, matt black inside.

Lamp : 1000 Watt Angle Burning General Service GES cap

Beam Angle : 100°

Cut-off angle : 110°

Weight : 17 lbs.
